

Dear Star of the Sea Parents:

We have begun the process of implementing an exciting, upgraded technology plan for our school with the SMART STARS CAMPAIGN. It is the goal of Dr. Whisman and the School Board to help enhance classrooms this year with the most up-to-date learning materials along with SMART Boards.

SMART Boards are 77 inch screen whiteboards that allow software and the internet to be displayed on the screen and to be used interactively by teachers and students. To review the technology, please visit [www.smartboards.com](http://www.smartboards.com).

The cost to purchase and install per classroom is approximately \$2,500 which roughly calculates to \$200 per family based on 100% participation. Throughout this year we will be offering various **voluntary** opportunities to support this program with fundraising options. But today, we are asking your help in *jump-starting* this important initiative with a donation towards the purchase of our 1<sup>st</sup> SMART Board! Please review the options below and if you would like to help, please send in your donation to the office Attn: SMART Board committee.

Thank you in advance for your consideration in supporting this important technology improvement for our school and students.

Sincerely,

Strategic Planning Committee
